Young Canada Works - Update May, 15, 2015

Young Canada Works (YCW) summer student and graduate internship programs for 2015-2016

The Canadian Library Association in partnership with the Department of Canadian Heritage, Young Canada works program is delighted to announce that final funding decisions have been made regarding 2015-2016 applications. Our selection committee met for two days, to discuss and review all 154 (summer jobs applications) from 130 libraries, and 9 internships from 9 libraries. Organizations are ranked on financial need, the clarity of application, the heritage goals that the summer student positions (internship) fulfills, as well as, the Department of Canadian Heritage's mandate of offering students gainful employment in the heritage (library) sector.

This year, we are pleased to be able to fund 100 summer jobs and 4 internships from 10 provinces, coast to coast to coast. Decisions regarding funding of applications have now been made. We thank you for your continued support of the Young Canada Works

Program, at the Canadian Library Association.

Sincere thanks goes to the 2015 Selection Committee members: Jim Bennett (Chair), Donna Presz and Colleen Murphy who spent countless hours in advance of the committee meeting evaluating each application according to Department of Canadian Heritage guidelines. Thank you Jim, Donna and Colleen for your sterling service.

Digital Odyssey 2015: *Open Data, Open Heritage*

At Digital Odyssey 2015 "Open Data, Open Heritage", we will examine the intersection of governmental, academic, and community open data and open heritage materials. We will also investigate the roles cultural heritage institutions can and should play in concert with other participants in the emerging open data, open heritage environment.
Governments at the municipal, provincial, and federal level have started to embrace and publish open data for transparency and efficacy. Academics are increasingly facing mandates (and finding incentives) to preserve and share their research data, enabling verification of their results and new insights based on their data. Citizens and community groups want to use open data to inform business decisions and suggest policy directions; other groups want to digitize, preserve, and share their heritage materials to maintain a historical record. Cultural heritage institutions such as libraries and archives have the professional mandate and skills to preserve, organize, and facilitate access to that data.

Date: Friday June 12
Duration: 9:00am-4:15pm
Location: George Brown College, Waterfront Campus, Toronto

Title: Demystifying Copyright, A Researcher's Guide to Copyright in Canadian Libraries and Archives, 2nd Edition
ISBN: 978-0-88802-340-7
Year Published: 2014
Publisher: Canadian Library Association

Much has changed since the first edition of Demystifying Copyright was published in 2001. In the years that followed, the federal government embarked on a process of copyright reform to fulfill Canada's obligations under international copyright treaties and to address how copyright operates in the digital environment. Some minor amendments to the Copyright Act we made in 2004, and the Act was significantly amended in 2012, when Copyright Modernization Act was passed. The amendments discussed in this edition came into force 7 November 2012.

This second edition reflects the key changes to Canada's copyright law since 2004 that are of particular relevance to people who conduct research in the nation's libraries and archives, and to the librarians and archivists who serve them.
