

## **Canadian Library Association / Association canadienne des bibliothèques Position Statement on Florence Agreement**

*Approved by Executive Council ~ November 3, 1977*

The Canadian Library Association supports Canada signing the Florence Agreement.

### Note:

The major purpose of the Florence Agreement (so-called because it was approved by a Unesco general conference in Florence, Italy in 1950) is to make easier the importation of books and a wide variety of other scientific, educational and cultural materials by eliminating or reducing tariffs and other trade barriers in signatory countries.
